470 Woodycrest Avenue
Nashville, TN 37210

Will,

Thanks for the hard work you and your guys did to ensure a successful inventory reduction for my store. It was great the way your team came in to photograph and catalogue all the items on-site at my warehouse. I think it was the best way for me to clear that space for other uses without having to lose the investment I had made in all that inventory. Not only was the space cleared, but everything sold for good prices in the process. I'm not sure anyone else could have accessed as many buyers as you did while providing the same level of service in such a short timeframe.

I was also impressed with the quick turnaround and the fact that all deadlines were met including the prompt removal of all items sold in the auction. I must admit I was a little worried that we would have trouble clearing everything out just because of the large volume of inventory but it was great the way all your buyers came in and removed everything in just two days. Your professional staff worked in an efficient manner that made the whole auction process easy for me allowing me to focus my attention on my business.

I would highly recommend your services to any business owner looking to clear out a large volume of inventory.

Sincerely,

Ed Warner
